#### **West Coast Multiplex Society**

Met on Dec. 12<sup>th</sup>. Presentation by Peter McCloud on the multiplex business plan, which included the budget anticipated for construction, site service, insurance, financing, and operation start up: these costs were valued between \$10,700,000 to \$13,500,000. Annual operations are anticipated to run at a deficit of \$231,000 (after revenues and expenditures). If the budget includes a capital maintenance plan and capital fund replacement, this would increase the deficit to \$349,000 for the first couple of years. Owners of Sprung anticipate 6 months to build the multiplex.

#### **Update from DFO / Small Craft Harbour**

Council met with DFO representative Katy Rattan regarding an update on the new breakwater system. They are looking at a ramping system to connect the breakwaters to Ucluelet's existing facility early in the new year. The ramp between the two breakwaters will take a bit longer to manufacture. Two representatives from the Harbour Advisory Commission were also in attendance. Council and Ms. Rattan agreed to jointly review their respective business plans in March/April 2017 in order to ensure Ucluelet's plan is aligned with DFO's for the next phase of the outer dock. The District will be able to leverage this future investment in the harbour for other funding sources, showing that Small Craft Harbour is a huge economic driver for our community.
