
Unidirectional Flushing Program 2017

The District of Ucluelet has now completed all 11 Zones within the Unidirectional Flushing Program. This type of aggressive flushing is an effective tool to help us maintain and improve water quality throughout the District. We are pleased with the overall process and deem it to be a successful project. At present, the District is looking at conducting an annual Unidirectional Flushing Program.

We would like to take this opportunity to thank you all for your patience and understanding over the past two weeks. If you have any concerns or would like to provide us with any feedback, please contact Warren Cannon – Superintendent of Public Works at 250-726-5507 or by email at info@ucluelet.ca
