

Public Notice

Water Improvement Project

As part of the Matterson Reservoir Improvement Project, District staff will be taking the next steps in completing this project by introducing Matterson Reservoir back in the distribution system.

This will start today, March 21, 2019.

This work can result in water discolouration.

If you note discolouration in your water supply, we suggest running an outside tap until the water clears.

PLEASE NOTE

Water systems pressures will change throughout the process and temporary loss of pressure in situations may occur. If this occurs, we suggest running an outside tap to flush the system.

**We apologize for any inconvenience and
Thank you for your patience.**
