

**Notice – Temporary Water Shut-Offs:
July 27 & 28, 2023**

Please be advised that Yew Street, sections of Matterson Drive and Larch Road will be without water between the hours of 10:00 am – 12:00 pm on Thursday, July 27th, and again between 8:00 am – 12:00 pm on Friday, July 28th. Area residents may also experience discoloured water because of this utility upgrade work.

On Thursday, July 27th, our Public Works team will be doing some preliminary assessment work for a fire hydrant replacement on Matterson Drive in front of the Ucluelet Secondary School that will be carried out on Friday, July 28th, 2023. Traffic will not be affected on July 27th. Milner Group will complete the hydrant replacement work on July 28th and will be working in the shoulder of Matterson Drive. Vehicle traffic may be reduced to single lane alternating on an as needed basis, but minimal impact on traffic flow is anticipated.

The area impacted by the water shut-off has been estimated to the best of our ability. When conducting work on live infrastructure, the estimated area of impact often changes as the situation unfolds. We thank you for your continued patience and understanding during this process.
