### District of Ucluelet Bylaw 1135, 2011 Sewer Regulations and Charges

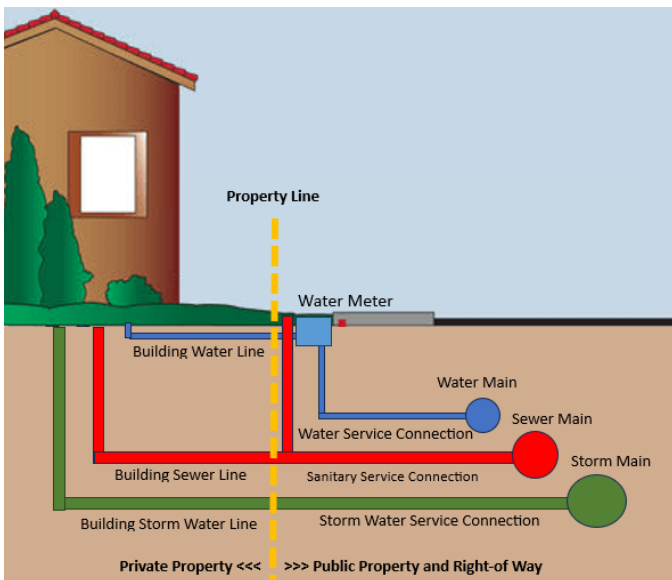

When connecting a building sewer line to a sanitary service connection that is part of a force main system, the property owner will be required to:

- a) Register a restrictive covenant on title to the land in a form acceptable to the District stipulating that the service connection is governed by the terms and conditions of this Bylaw and the Building Bylaw;
- b) Pump the waste by means of a sewage pump unit designed by a professional engineer and located on the owner's parcel; and
- c) Install the sewage pump unit and the associated force main in accordance with the engineered design, and to operate and maintain them, all at the owner's expense.

When an application for a service connection accompanies a building permit with the construction value greater than \$100,000, or where the parcel is being redeveloped, the following applies to the to the service connection and the building sewer:

- a) If the service connection and building sanitary sewer is less than 30 years old, the owner must provide a video inspection and recommendation for the District to review. The owner shall repair or replace the connection if the District determines that the connection is not adequate for service or has excessive damage;
- b) If either the service connection or the building sewer is 30 years old or older, a replacement or new service is required;
- c) All no-corrode, asbestos cement or clay service pipes of any age or condition shall be replaced;
- d) Any shared service connections and building sanitary sewer shall be replaced; and
- e) All costs associated with the above are the responsibility of the owner.
