Subject: 221 Minato Road

[External]

Hello,

I am writing to express my strong support for the proposed housing development at 221 Minato Road which aims to add affordable homes to our community.

As a resident of Ucluelet I believe that this project represents a vital step toward addressing the pressing need for accessible, affordable housing. Rising housing costs have placed increasing pressure on working families, young professionals, seniors, and essential workers. The proposed development will not only provide stable housing options for these groups, but it will also help preserve the diversity and vitality that make our community strong.

This project has the potential to:

- Increase the availability of safe, high-quality, and affordable housing units.**
- Reduce displacement pressures faced by longtime residents.**
- Support economic growth by helping local employers attract and retain workers.**
- Encourage inclusive and equitable community development.**

I understand that change can bring questions and concerns, but with thoughtful planning and community input, this development can be a model for sustainable and inclusive growth. I respectfully urge the committee to approve this proposal and to continue prioritizing solutions that address the housing crisis affecting so many in our area.

Thank you for your attention to this matter and for your commitment to a more livable and inclusive community.

Sincerely,

Ed VanDrimmelen

Saltwater Building Co
