Subject: Proposed bylaw comments

[External]

Hi,

I just wanted to send an email in support of the following three proposed amendments:

File No: RZ26-03 BL1401- would be more supportive if there was a mixture of both residential and tourist, not 'or'.

File No: RZ26-02 BL1396- Fully support for all zones File No: RZ25-06 BL1398- curious on the condo to residential ratio. It would be nice to continue to have space for commercial as well for bottom floor. A cafe here would do well.

Also, in general I am in support of construction and adding residential, commercial and pub use regarding File No: RZ24-14 BL 1382 however, on the drawing it doesn't look like there is enough parking. For all the potential uses we would need significant parking on the property. 2 per unit residential, one for smaller rentals, and many more for the pubs. It also would be good to ensure planting/vegetation throughout property, not just a front 'park'. I also would prefer the 5 unit resort condo building to be residential or even long term rental residential but still ok with what is proposed.

Warm Regards,

Danielle Dievert
