Subject: Zoning Bylaw Amendment RZ25-06-604 Rainforest Drive

[External]

Dear Ucluelet Mayor and Council,

I am writing in regards to the Zoning Bylaw Amendment RZ25-06-604 Rainforest Drive. I am currently building on [REDACTED], directly behind 604 Rainforest Drive.

The original intention of the lot was that there was to be a ground floor commercial/medical clinic which would have been of great benefit to the community. I urge the council to consider keeping the spirit of the original zoning bylaw and have the applicant build something that will be of long term benefit to the community on the lot. The district is in dire need of long-term affordable housing. Instead of there being more resort condos built, I suggest that the council consider making the site all affordable residential condos.

Thank you for considering my input.
