Subject: NO TO Big beach PROPOSAL

[External]

Hi there,

I am writing as a concerned ucluelet 24 year resident. The last thing I want see is more hotels on the beach that at one time not so long ago was just a tiny path and completely secluded.

We do not need this to happen. All of these things that have been happening are turning our town into something that is undesirable. How about we build some low income housing for all the people that keep this town going.

As I said, I am highly opposed and anybody I know that I've talked to is highly opposed. Do not do this to our town!!!

Sincerely,

Ashlie
