Subject: Rainforest Drive Amendment

[External]

My name is Kimberly Wellis, I've lived proudly in Ukee for 11 years. I reject the amendment to allow luxury condos at 604 Rainforest drive.

Quite simply, I've been in the position having to face either finding a place to live 3 times in my time here (near impossible, ask anyone looking) or you leave town. I've seen singles and FAMILIES that have been here for 50+ years have to pick up and leave because their rental just became an air bnb. The last thing we need is a fucking luxury condo. We NEED accomodation for people ALREADY LIVING HERE. Please, please consider that. It's a huge problem.

Please consider your current residents who contribute to our society every single day of the year before people only looking to buy a luxury suite.

Sincerely, concerned tax paying citizen
