Subject: Affordable housing – Hyphocus Island

[External]

Hello,

My name is Rosalie Arseneault. I have been living and working in Ucluelet for the past eight years. I have owned a mobile home for the last two years.

I am writing to express my support for the development of affordable housing within our community. Ucluelet is a beautiful place to live, and it would be wonderful to ensure that members of the middle class who wish to be part of this community are able to do so.

What makes Ucluelet such a special place is not the presence of wealth, but rather the everyday people who live and work here—the individuals walking our streets, serving our coffee, and running the public markets during the summer months.

I fully support any ideas or initiatives that could make it possible for me, and others like me, to one day raise a family here in a comfortable home. If there is an opportunity to help make this dream more accessible, I support the necessary measures.

Thank you for your time and consideration.

Sincerely,
Rosalie Arseneault
